Applying Past Knowledge to New Situations

Intelligent human beings learn from experience~

- use what is learned
- consider prior knowledge and experience
- apply knowledge beyond the situation in which it was learned
- draw from prior knowledge to figure out new situations
- “This reminds me of . . .”

Questioning and Posing Problems

People who ask questions and pose problems:

- have a questioning attitude
- know what information is needed and know how to create questions to find out
- find problems to solve
- know what they know and don’t know
- are curious
- realize there are different levels of questions needed depending on what needs to be learned
