

Name _____

Science/Math "Oh Deer"

What do you think is the carrying capacity of the deer habitat? _____

Why do you think that? Give your best explanation as to why you chose that as the carrying capacity.

Name two patterns that you see occurring in the graph.

Choose one of those patterns and explain, as well as you can, why it occurred.

Name three limiting factors that keep a population from getting too big.

Choose one of those limiting factors and explain how it keeps the population from getting too large. Use multiple ideas if possible. _____

Are limiting factors good or not? Explain your opinion with good reasoning.
