

Favorite Scene

The Adventures of Pearley Monroe

Everyone seems to have a favorite part of a show, movie or book. Evaluate all the wonderful scenes about which Marci Seither wrote. What is your favorite scene in *The Adventures of Pearley Monroe*? Select the one part that you enjoyed the most. You will get to bring that scene to life, artistically!

Create an image of the scene in your mind. Then, you will get to illustrate that image on paper. You may draw it, add 3-D effects, use real objects to fasten onto your paper, paint it, color pencil it, use construction paper-whatever you wish. You may mix it up and use many of the media above. Whatever you choose to do, make the scene as close to how you see it in your mind.

You will then need to give a brief narration of the scene so that a viewer of your project will know what the scene shows. Additionally, you will need to explain why that scene is your favorite. What is it about that scene that you like? Why is that scene better than all the others? Explain that to your reader, too.

You will need to turn in a first draft of your writing by_____.

At that time, you will need to continue to work on the picture. The writing will be returned to you with revisions and edits to make. You will get to revise and edit the work and create a final copy. Then, on the due date, we will assemble the work onto one sheet of construction paper in order to display your work. We will have our own Pearley Monroe gallery in our classroom.

Work hard, don't delay in getting started, stay on top of the assignment and have it at school each day so that you can work on it when you get a chance. Have fun bringing the best scene in *The Adventures of Pearley Monroe* to life.

The due date for the full project is _____
