

The Terrible Wave

By Marden Dahlstedt

In this book Marden Dahlstedt creates an exciting plot with danger lurking around every corner. The characters run around and they find trouble every where they go. Megan is a main character and is in big trouble because the flood has come and Megan has to fight to survive, but not for long because Brian is dropped into the story and helps Megan survive with new friends....

....but for how long?

The Johnstown Flood happened in 1889, and the result was devastating. The flood killed over 2000 people when 20,000 tons of water was dumped on Johnstown. The flood destroyed almost the entire Johnstown. Many people died in terrible Johnstown Flood.
